PROFESSIONAL SUMMARY

MBA candidate in Data Science & Analytics at Jain Deemed-to-be-University, coming from four months of compliance work (GST, corporate law, SME accounting) at a chartered accountancy firm. Built a full statistical analysis project in Python - data cleaning, hypothesis testing, eighteen significance tests - plus a two-dashboard Tableau workbook from the same dataset. Currently in SQL and statistical methods coursework. The compliance background means reconciliation and data accuracy are already habits, not new skills to pick up.

SKILLS & TOOLS

Data & Analytics	Python (Pandas, NumPy, Matplotlib, Seaborn, SciPy), SQL (querying, joins, aggregations, subqueries), Statistical Testing (t-tests, ANOVA, chi-square), Tableau (calculated fields, parameters, LOD expressions, dashboards, storyboards), Jupyter Notebook, VS Code, Excel (advanced); data sourcing and cleaning across CSV, Excel, and relational database sources
Compliance & Regulatory	GST Filings (GSTR-1, GSTR-3B), TDS, PF, ESI, RoC Filings, GST Litigation, Trust Law, Companies Act
Accounting & ERP	Tally Prime, Winman
MS Office	Word, Excel, PowerPoint

DATA ANALYTICS PROJECT

Smartphone Market Analytics - Statistical & Business Intelligence Study | *Applied Learning Project, MBA Semester 3, Jain-Deemed-to-be-University (2026)* | [GitHub Repo](#)

- Sourced, cleaned, and validated a 990-record, 22-variable smartphone dataset (raw CSV) in Python (Pandas, NumPy, SciPy), then ran 18 hypothesis tests (t-tests, ANOVA, chi-square) at a 95% confidence level to identify what drives price, performance, and satisfaction.
- Found brand to be the strongest price predictor, with demographics showing no significant effect on purchase behavior - the market is specification driven, not demographic driven.
- Built a two-dashboard, 15-worksheet Tableau workbook and a 27-page report with recommendations on product positioning, regional pricing, and segmentation. Full notebook, report, and workbook on GitHub.

WORK EXPERIENCE

Compliance & Regulatory Associate (Internship) **4 Months**
Bharadwaj and Hosmat, Chartered Accountants - Bengaluru

- Filed monthly GSTR-1, GSTR-3B, TDS, PF, and ESI returns for 10–20 clients on Tally Prime, on time and without errors.
- Reconciled financial records and drafted responses to GST notices, including cases where the penalty demand was simply wrong.
- Handled compliance for trusts and non-profits under the Indian Trusts Act, 1882, closure filings included.
- Supported company incorporations, statutory registrations, and RoC filings under the Companies Act, plus post-incorporation compliance and record-keeping.
- Worked directly with the GST Department, Income Tax Department, and Registrar of Companies to keep assignments on schedule.

EDUCATION

Qualification	Institution	Score	Year
MBA - Data Science & Analytics	Jain Online Deemed University, Bengaluru	Pursuing (Sem 3)	2025–Present
Bachelor of Commerce (B.Com)	Seshadripuram Evening College, BCU	8.94 GPA	2021–2024
Class XII (PUC)	Vikasa PU College, Shivamogga	100%	2021
Class X (SSLC)	Jnanavahini High School, Koppa	96.64%	2019
